

IBM SPSS Statistics on a Personal device.

As part of our academic licence agreement for SPSS Statistics, staff and students are entitled to install SPSS Statistics on their personal devices. Our licence runs February to February of each year so you will need to relicence your installation each year around this time.

Important Notes:

- The licence for this software is provided for academic and research purposes with the aim to allow you to study at home. Using the application for commercial use is not permitted.

Downloading and installation

You will need to be logged on to a college computer or accessing via Remote resources (rds.southessex.ac.uk) to access the files

The installation files are located on the R:\ drive in the following location:

[R:\SPSS Statistics for Home Use](#)

There will be a zip file containing everything you need to install, please copy this file on to a USB stick or download via Remote Resources.

Inside the Zip file you will find: Installation/Licensing guide (provided by Presidion), Windows Installers and licence code which you will need at the end of your installation.

You may find two installers one will be the main installer and the other a feature patch. It is recommended you apply the feature patch after installation as it contains bug fixes.
